INTRODUCTION TO THE ILLUSTRATED PARTS LIST

TASK 25-04-48-99F-801-A01

1. Introduction

A. General

- (1) The Illustrated Part List (IPL) contains the illustrations and the parts lists of the component(s) shown on the title page. The parts lists give the items which can be disassembled, repaired or replaced, and assembled.

TASK 25-04-48-99F-802-A01

2. Explanation and Usage of Section

A. Assembly Order Indenture System

- (1) The indenture system used in the parts list shows the relation of the parts to each other. For a given item, the number of indentures shows the relation of the item to the next higher assembly as follows:

1 2 3

Assembly

- . Detail parts for Assembly
- . Attaching Parts for Assembly
- .. Subassembly
- .. Attaching parts for Subassembly
- ... Detail parts for Subassembly

B. Effectivity Code

- (1) In IPL figures that have more than one top assembly item, reference letters (A, B, C, etc.) are given to each top assembly item in the EFFECT CODE column. The reference letter of the applicable top assembly is also shown in the EFFECT CODE column for each detail part and subassembly, except that no reference letter is shown for detail parts and subassemblies used on all top assemblies.

NOTE : The effectivity code identifies affected parts in a single figure only. The same code can appear in other figures, but it is only to be used for those parts in the figure in which it is listed. Effectivity does not necessarily relate to more than one figure.

C. Units Per Assembly

- (1) The UNITS PER ASSY column shows the total number of units required per assembly, per subassembly, and per sub-subassembly as applicable. For bulk items, the abbreviation AR is used for "as required". The abbreviation RF shows the

Safran Seats (Safran Seats France)
COMPONENT MAINTENANCE MANUAL
3162-SERIES

item is listed for reference purposes.

- (2) The abbreviation "NP" besides the quantity shows the item is "NOT PROCURABLE". The abbreviation "RPD" besides the quantity shows the item is "REPLACED". The abbreviation "SPD" besides the quantity shows the item is "SUPERSEDED", the abbreviation "BFE" besides the quantity shows the item is "BFE".

D. Parts Replacement Data

- (1) The interchangeability relationship between parts is identified in the NOMENCLATURE column of the parts list. A list of the terms used to show interchangeability and their definition is as follows:

Table 25-04-48-997-991-A01

Interchangeability Definitions		
Term	Parts List Abbreviation	Definition
Alternative Part Number	ALT PN	This part is alternative to and interchangeable with other parts in the same item number variant group or other item number if designated
Superseded by	SUPSD BY	The part in the part number column is replaced by and is not interchangeable with the item number shown in the notation
Supersedes	SUPSDS	The part in the part number column replaces and is not interchangeable with the item number shown in the notation
Replaced by	RPLD BY	The part in the part number column is replaced by and interchangeable with the item number shown in the notation
Replaces	RPLS	The part in the part number column replaces and is interchangeable with the item number shown in the notation

E. Items Not Illustrated

- (1) Items not illustrated are shown by a dash (-) in front of the item number in the FIG. and ITEM NO. column.

3162-SERIES

F. Alpha Variant Item Numbers

- (1) Alpha variants A-Z (except I and O) are added to existing item numbers when necessary to show:
 - (a) Added items
 - (b) Service Bulletin modifications
 - (c) Configuration differences
 - (d) Optional parts
 - (e) Material improvement parts (non service bulletin).
- (2) Alpha variant item numbers are not shown in the illustration when the appearance and location of the alpha variant item is the same as the basic item.

G. Locating Parts

- (1) To find a part with a known Part Number (PN).
 - (a) Refer to the Numerical Index and find the PN.
 - (b) Read across to the related figure and item numbers.
 - (c) Refer to the figure in the parts list.
 - (d) Find the item number on the illustration.
- (2) To find a subassembly PN from a known assembly PN.
 - (a) Refer to the Numerical Index and find the assembly PN.
 - (b) Read across to find the related figure and item numbers.
 - (c) Refer to the related IPL figure and find the item number of the known assembly. This will give an indented breakdown of the assembly PN.
 - (d) Cross reference with the related illustration and IPL for the subassembly item number.

H. Part numbers codification

(1) Standard Part Numbers

Standard international standard part numbers is mentioned in Part Number column: i.e. NAS601-5P.

Internal Safran Seats France's standard parts numbers codification is mentioned in Nomenclature Column: (VINAS6015P) like vendor code.

Thus, VINAS6015P = NAS601-5P

(3) Safran Seats France's Parts Number

Standard Safran Seats France's Parts number codification is:

2 digits - 6 digits - 3 digits - 1 digit.

Thus, XX – xxxXXX – xxx – X.

Example: 65-000600-800-0

- (a) Occasionally a «A» can appear between the 8th and 9th digit.

Thus, XX – xxxXXX A xxx – X

Example: 65-000600-800-0 = 65-000600A800-0

NOTE: These part numbers are two ways interchangeable.

- (b) Occasionally a «R» can appear between the 11th and 12th digit.

Thus, XX – xxxXXX - xxx R X

Example: 65-000600-800-0 = 65-000600-800R0
65-000600A800-0 = 65-000600A800R0 (a and b)

NOTE: These part numbers are two ways interchangeable.

- (c) Occasionally a triple «000» can be missed between the 2nd and 6th digit.

Thus, XX – XXX – xxx – X

25-04-48

INTRO 10001
Page 5
Jun 16/2023

Safran Seats (Safran Seats France)
COMPONENT MAINTENANCE MANUAL
3162-SERIES

Example: 65-000600-800-0 = 65-600-800-0
65-000600-800-0 = 65-600A800R0 (a, b and c)

NOTE: These part numbers are two ways interchangeable.

- (d) Occasionally a «1» can appear instead of the first dash «-».

Thus, XX 1 xxxXXX – xxx – X

Example: 65-000600-800-0 = 651000600-800-0
65-000600-800-0 = 651600A800R0 (a, b, c and d)

NOTE: These part numbers are two ways interchangeable.

- (e) To include the color code information in the part number, the dashes have been removed and color code added at the end of the PN.

Thus, XX – xxxXXX – xxx – X with color code Hxxx became
XXxxxXXXxxxXxxx
XxxxXXX-xxx with color code YY became XxxxXXXYYxxx

Example:

65-000600-800-0 with color code H108 became 650006008000108
651600A800R0 with color code H108 became 650006008000108 (a, b, c, d and e)
G081309-517 with color code AK became G081309AK517

NOTE: These part numbers are two ways interchangeable.

- (f) New Safran Seats France's Parts number codification is only: "F0" and 6 digits.

Thus, F0xxxxxx.

Example: F0414381
F0450563

- (g) Safran Seats France Article Code Reference

Below each part, we indicate a Safran Seats France article code (REF: xxxxxx) as additional information in the "1234567 nomenclature" column of the CMM.

Safran Seats (Safran Seats France)
COMPONENT MAINTENANCE MANUAL
3162-SERIES

DETAILED PARTS LIST

FIG. ITEM	PART NUMBER	AIRLINE STOCK N°	1234567 NOMENCLATURE	EFFECT. CODE	UNITS PER ASSY.
7 5	65-000240-100-1		.STRUCTURE, LH BACKREST (REF : 063374)	A	1

Safran Seats France Article Code Reference
Figure 10001/Graphic-25-04-48-991-001-A01

Thus, 65-000240-100-1 = 063374

Examples: 650006008000108 = 047323P108
P79312-M03 = 272507

NOTE: These part numbers are two ways interchangeable.

(h) Integration of the letter 'F' in front of the article code.

Further to the ERP change, the article code codification (REF: xxxxxx) became (REF: Fxxxxxx):

DETAILED PARTS LIST

FIG. ITEM	PART NUMBER	AIRLINE STOCK N°	1234567 NOMENCLATURE	EFFECT. CODE	UNITS PER ASSY.
4 225	16-100200-011-0		..TRACKING MOTOR FIXATION (REF: F324566)		1

Integration of the Letter 'F' in Front of the Article Code
Figure 10002/Graphic-25-04-48-991-002-A01

Thus, 16-100200-011-0 = F324566

Examples: 650006008000108 = F047323P108
P79312-M03 = F272507
P79387A070 = F0414381

NOTE: These part numbers are two ways interchangeable.

Thus: (REF: xxxxxx) = (REF: Fxxxxxx)

Examples: 047323P108 = F047323P108

272507 = F272507

NOTE: These part numbers are two ways interchangeable.

- (i) The supplier PN could be also given as information when the part number indicated on the column part number is a F0xxxxxx type.

DETAILED PARTS LIST

FIG. ITEM	PART NUMBER	AIRLINE STOCK N°	1234567 NOMENCLATURE	EFFECT. CODE	UNITS PER ASSY.
2 490	F0414381		..READING LIGHT (P79387A070)		1

Supplier PN

Figure 10003/Graphic-25-04-48-991-003-A01

Thus, F0414381 = P79387A070

Examples: F0414380 = P33711M060

NOTE: These part numbers are two ways interchangeable.

- (j) Addition Of Color Code Into Part Number

1 Integration of color code into part number

To include the color information into the part number, the dashes have been removed and color code added at the end of the part number.

Example: PN 50-000610-024-0 with color code H022 Becomes 500006100240022

NOTE: These two part numbers are interchangeable.

The new codification has been introduced in all CMM initial release or revision issued after June 10th 2005 (see example [Figure 10004](#)).

2 Addition of Supplier Number (REF) in the CMM

Each Safran Seats France part has a Supplier Number indicated on its identification label (see [Figure 10005](#)). This REF number has been added as additional information in the "1234567 nomenclature" column of the CMM (see [Figure 10004](#)).

It is recommended to the customer to add this Supplier Number (REF) in the purchase order to improve delay and reliability in spare part data processing.

(1) New screws codification information

To limit to 15 digits the screw part number and to prevent screw corrosion with a new treatment (black screws become grey), Safran Seats (Safran seats France) change the screw codification as shown on the chart below:

NOTE : Old and new screw part numbers are two ways interchangeable.

NOTE : All screws PN NAS60x-x are replaced by PN NAS60x-xP

NOTE : All screws PN NAS60xx are replaced by PN NAS60xxP

L. New codification information

(1) We modified our references to be in accordance with standard

NOTE: Old and new part numbers are two ways interchangeable.

(2) On a general basis:

(a) all screws PN NAS60X-X are replaced by PN NAS60X-XP

(b) all screws PN NAS60X-X are replaced by PN NAS60XXP
